

PODCAST TRACK MODES

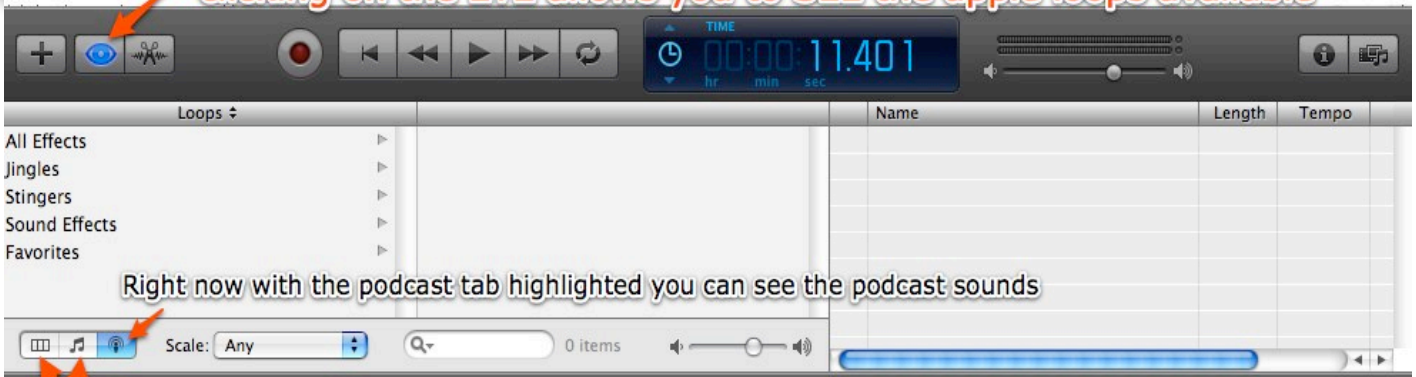

Edit mode

The SCISSORS is EDIT MODE From this mode you can edit the music or voice tracks OR add images, depending on which track is selected above

View mode

clicking on the EYE allows you to SEE the apple loops available

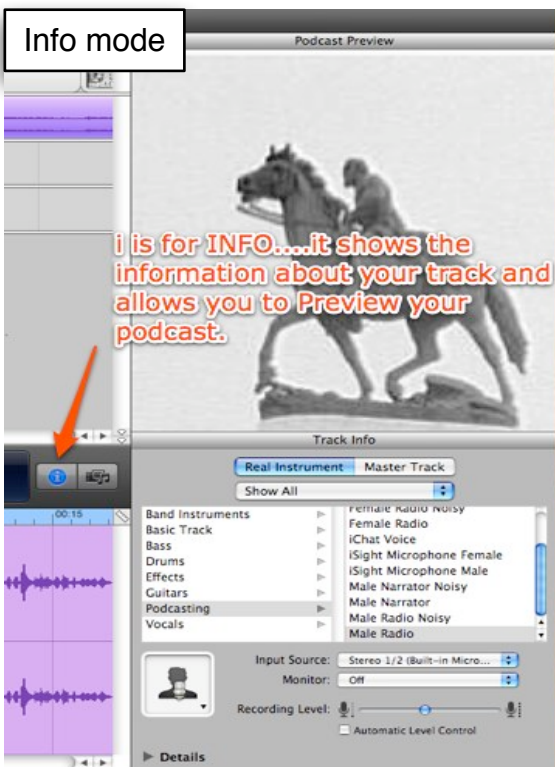

Right now with the podcast tab highlighted you can see the podcast sounds

These tabs will show you the loops by instrument

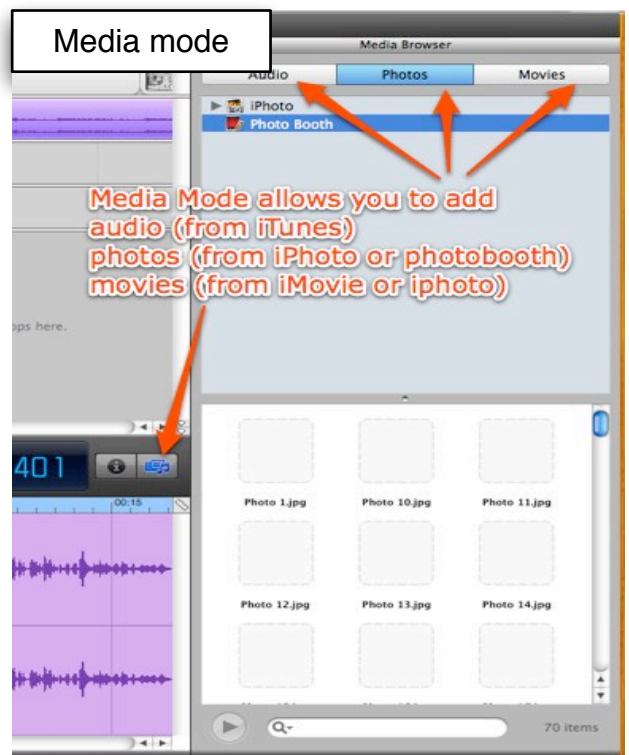

Info mode

I is for INFO....it shows the information about your track and allows you to Preview your podcast.

Media mode

Media Mode allows you to add audio (from iTunes) photos (from iPhoto or photobooth) movies (from iMovie or iphoto)

RECORDING TRACKS: A Pictorial How-To
